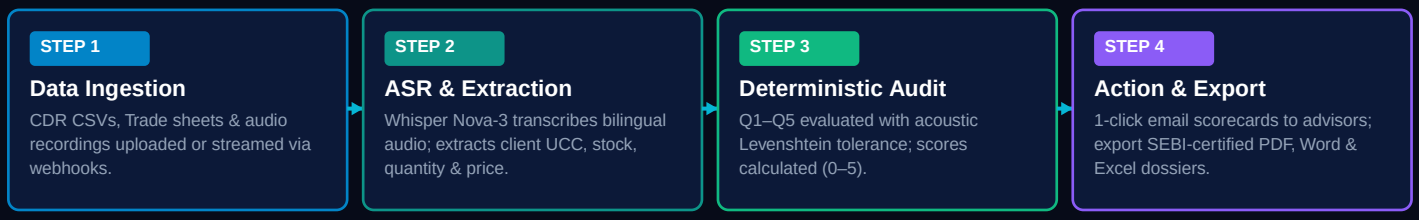
# Web Platform & Operational Walkthrough

FundsIndia Automated Pre-Order Speech Compliance & SEBI Auditing System

## 1. Executive Platform Mission

AuditEQ is FundsIndia's centralized, enterprise-grade web application built to automate compliance with SEBI Circular SEBI/HO/MIRSD/DOS3/CIR/P/2018/139. SEBI mandates that equity brokerages must record and maintain pre-order voice evidence for all market orders placed on behalf of clients. AuditEQ automatically ingests telephony recordings, performs speech-to-text diarization, aligns phone calls with exchange trades, scores adherence across 5 regulatory rules, and produces certified inspection reports.

## 2. End-to-End Operational Workflow Diagram



## 3. Target User Personas & Operational Roles

**Chief Compliance Officer (CCO)**
Executive oversight, regulatory inspection readiness, institutional risk heatmaps, fatal breach monitoring, SEBI audit package exports.

**Internal Audit & QA Analyst**
Reviewing borderline calls, validating transcript accuracy, resolving manual trade exceptions, auditing dealer conduct, disputing deductions.

**Equity Dealer / Dealing Desk Head**
Receiving daily 5-point quality scorecards, understanding parameter deductions (Q3), verifying client UCC articulation before order placement.

| ACTIVE AUDITS | COMPLIANCE RATE | GENUINE FAILURES | CONTRADICTIONS |
|---|---|---|---|
| 517 Scorecards | 84.7% Pass | 15.3% Breaches | 0 Mismatches |
| Compiled under 1 min/call | 438 fully compliant calls | 78 genuine omissions | 100% mathematical parity |

# Platform Modules: Dashboard & Calls Hub

Visual Walkthrough of Executive HUD, Audio Scrubbing & Synchronized Transcripts

## View 1: Executive Dashboard & 5-Axis SEBI Compliance Radar HUD

The Dashboard serves as the real-time mission control center for compliance officers. It visualizes aggregate regulatory adherence across all dealing desks and alerts auditors to systemic risks:

### 5-Axis SEBI Radar Chart (Visual HUD)

- **Q1: CLI Match (100%)**
- **Q2: Spoken UCC (84.7%)**
- **Q3: Parameters Stock/Qty/Price (68%)**
- **Q4: Verbal Consent (93.4%)**
- **Q5: Zero-Guarantee Prohibition (100%)**

### Key Compliance Performance Indicators

| | |
|---|---|
| Total Audited Pre-Order Sessions: | **517 Calls** |
| Clean Pass Score (5/5 Points): | **314 Calls (60.7%)** |
| Parameter Deduction Score (4/5): | **122 Calls (23.6%)** |
| Fatal Regulatory Breaches (0/5): | **79 Calls (15.3%)** |
| Average Dealer Compliance Score: | **4.64 / 5.00** |

## View 2: Interactive Calls Hub & Audio Waveform Player

The Calls View enables auditors to inspect physical audio recordings with millisecond-precision audio playback, dual-channel stereo isolation, and synchronized speaker-attributed transcript blocks:

**Call #2193 — Client: WIA71438 | Advisor: W1008 (FundsIndia Advisor) | Duration: 01:24**

Tata Tele Smartflo | Inbound: 9718766002 | Trade Match: #1388 (100 Qty @ CMP)

### Synchronized Interactive Dialogue Transcript

**ADVISOR** [0:04] Good morning sir, FundsIndia Equity desk. What order should I place today?

**CLIENT** [0:12] Please buy 100 shares of Reliance at current market price.

**ADVISOR** **[0:27] Confirming order: 100 quantity Reliance at CMP in account WIA71438. Placed.**

# Platform Modules: Scorecards & Master Grid

Official 5-Point Quality Scorecards, Advisor Dispatch & Multi-Trade Consolidation

## View 3: Official 4-Mark / 5-Point Quality Scorecard

Every verified pre-order call session generates an official regulatory scorecard. The scorecard evaluates all 5 SEBI checkpoints and enforces fatal breach zero-scoring rules:

**SCORECARD #948 | CALL #2193 | CLIENT: WIA71438 | ADVISOR: ASHUTOSH SHARMA (W1008)** — SCORE: 5 / 5

| QUESTION / REGULATORY MANDATE | RULE TYPE | MARK | EVALUATION & TRANSCRIPT EVIDENCE |
|---|---|---|---|
| 1. Calling Line (CLI) matches registered mobile | FATAL | 1 | PASS: Inbound 9718766002 matched KYC record. |
| 2. Pre-Order Client Code / UCC confirmed aloud | FATAL | 1 | PASS: Code "WIA71438" confirmed spoken at 27.48s. |
| 3. Parameters verified (Stock, Quantity, Price/CMP) | NON-FATAL | 1 | PASS: Stock (Reliance), Qty (100) & CMP confirmed. |
| 4. Customer verbal confirmation received | NON-FATAL | 1 | PASS: Affirmative consent "Please buy" verified. |
| [illegible] ab | [illegible] | 1 | PASS: Zero return commitments spoken by advisor. |

## View 4: Audited Master Grid & Consolidated Trade Ledger

The Audited Master View displays the single source of truth for all audited trade sessions. Multiple executions are grouped under one call session, displaying consolidated trade quantities and authoritative advisor names:

| CALL ID | ADVISOR NAME | CLIENT UCC | TRADES / SYMBOLS | QTY & AVG PRICE | SCORE | STATUS |
|---|---|---|---|---|---|---|
| #2 | Gowtham N (W1008) | WIA15516 | 3 Trades: INFY / REL / TCS | Total: 250 @ ¹1,420 | 5 / 5 | PASS |
| #28 | Praveen Kumar (W1012) | WIG60722 | 2 Trades: HDFC / ICICI | Total: 100 @ ¹980 | 5 / 5 | PASS |
| #157 | Ashutosh Sharma (W1008) | PWD09301 | 1 Trade: TATASTEEL | 100 @ ¹142 | 4 / 5 | PASS |
| #1389 | Unassigned Dealer | WIA47865 | 1 Trade: AXISBANK | 50 @ CMP | 0 / 5 | FATAL |

# Advanced Modules: Mail Audits, Reports & Ingest

Handling Trades Without Calls, Tamper-Evident Dossiers & File Uploads

## View 5: Manual Trade Audit & Client Email Confirmation Matcher

Not all trades are placed over the telephone. Under SEBI rules, pre-order instructions received via registered client email or written communication are legally valid. AuditEQ provides a dedicated Manual Trade module:

**Missing Call Recording Detection**

Trades executed on the exchange without matching pre-order phone recordings are flagged in the Trade Reconciliation ledger as MISSING_CALL.

**Registered Email Parsing**

Compliance officers upload client authorization emails. The system parses email timestamps, client email address, and order specifications.

**Certified Mail Audit Scorecard**

Generates a certified compliance scorecard marked "CONFIRMED_VIA_MAIL", attaching the email reference to complete the regulatory trade ledger.

## View 6: Regulatory Reports & Cryptographic Archival Center

When SEBI auditors inspect broker operations, brokerages must provide complete audit logs. AuditEQ generates comprehensive, inspection-ready report packages in one click:

| | |
|---|---|
| **1. Official SEBI Inspection Dossier (PDF)** | Cryptographically signed audit certificate for any call with audio waveforms, transcript snippet, dealer code & timestamp verification. |
| **2. Consolidated Master Audit Ledger (Excel)** | Full spreadsheet export containing all 517 physical calls, consolidated trade quantities, weighted prices & Q1–Q5 status marks. |
| **3. Clean Client Master Export (CSV)** | Authoritative mapping of verified investor UCCs to registered mobile numbers and authoritative FundsIndia dealing advisors. |
| **4. Executive Advisor Risk Pareto Report** | Breakdown of compliance pass rates per dealer, identifying non-compliant advisors with fatal omissions for training interventions. |

## View 7: Multi-Source Data Ingestion & Batch Processing Hub

AuditEQ ingests telephony data through drag-and-drop batch upload or automated webhook streaming. File formats supported:

**Tata Tele / Smartflo CDR**

Call Detail Record CSVs containing call duration, inbound CLI, extension & recording storage URLs.

**Exchange Trade Order Sheet**

Daily executed order book containing order timestamp, trade date, client UCC, symbol, qty & price.

**Bulk Audio Recordings ZIP**

ZIP archives containing high-definition 16kHz dual-channel WAV or MP3 audio files matching CDR IDs.
